EXPERIENCE

Level SuperMind

📅 June 2019 – Present 📍 Mumbai, India

Lead Product Engineer

- **Led a team of 4 people** to drive revenue, achieving organizational **break-even point**
- Acquired **10K+ users** by building a web-app for online boot-camp that helped the team conduct sessions on Meditation and Workout
- Tested and Identified **critical bugs** in customer-facing products, and helped resolve them along with Android team
- Built internal tools for data analysis and decision-making

Software Engineer

- Reduced content consumption bandwidth by **up to 78%** through implementation of HTTP Live Streaming, improving user experience
- Reduced API **response time by 99%** by implementing sensible caching mechanisms, resulting in better conversions
- Seamlessly handled **thousands of transactions** on a monthly basis by building the Payment Infrastructure end-to-end
- Designed robust database schema that helped shape the foundation of the back-end infrastructure for the start-up

Algorisys

📅 Jan 2021 - Aug 2021 📍 Mumbai, India

Software Engineer

- Led a team in developing cross-platform mobile apps using React Native and Node.js.
- Built a full-stack web app with Angular and Java Spring, leveraging Docker, AWS, and PostgreSQL for improved efficiency and scalability.
- Demonstrated expertise in developing both mobile and web applications with a focus on enhancing user experience and efficiency.

MailModo

📅 Feb 2020 - Apr 2020 📍 Bangalore, Karnataka

Front-end Intern

- Built high-performance AMP email templates used by established companies
- Developed internal tools such as a DNS validator

TECHNICAL SKILLS

- Node, Fastify, Express, Rust, REST, GraphQL
- JavaScript, React. Next, GatsBy, TailwindCSS, TypeScript
- MySQL, Redis, PostgreSQL, MongoDB, DynamoDB, AWS
- Version Control (Git)

EDUCATION

Bachelor of Computer Applications
Gauhati University

📅 2017 - 2020

Higher Secondary
Jawahar Navodaya Vidyalaya

📅 2017

Secondary
Jawahar Navodaya Vidyalaya

📅 2015

PROJECTS

AutoGolf
Freelance

- Developed a Golfing app that facilitates golfers to discover nearby courses, connect with fellow enthusiasts, and arrange collaborative play experiences.
- Tech Stack: AWS, Node, React Native, MongoDB, WebSockets

WebP Converter
Internal Tool

📍 lvl.fit/webp

- Designed and built a user-friendly application for converting images to the WebP format, initially developed as an in-house tool.
- Tech Stack: Node, JavaScript, React

Fetchr
Personal Project

📍 lvl.fit/fetchr

- Developed CLI application for fetching and displaying system information. Implemented features for CPU, memory, disk, and network statistics.
- Tech Stack: Rust

DogeGram
Personal Project

📍 lvl.fit/doge

- Developed a meme-centered social media platform, closely resembling Instagram's interface.
- Tech Stack: Firebase, React, TypeScript
